5. Earth colours, combined in an unusual skirt and top and accessorised with ethnic style jewellery
6. Elegant trousers, silk camisoles, long, almost smoking style jackets for lounging and relaxing in, in beautiful fabrics

8. Favourite colour combinations are:

1. Natural looking dyes, nothing too bright or startling
2. Blends of colours which are close in tone – not ultra high contrast
3. Pastels
4. Rich bold colours against black
5. Unusual shades and earth rich tones
6. Neutrals combined for elegance – shades of grey or beige or camel

Results: Work out your total!

Mostly 1's = Natural

Your style preference is very natural. You are likely to prefer natural fabrics, comfort will be important and you will not want too much fuss. Avoid sacrificing style for comfort completely and discover how to wear clothes in which you are both comfortable and stylish.

Mostly 2's = Classic

Your look is timeless and you tend to avoid trends and to like clothes that speak of quality, simplicity and a timeless elegance. Avoid becoming dated. Review your wardrobe every 3- 5 years. Clothing details can change so that you begin to look dated and then out of touch.

Mostly 3's = Romantic

You are likely to prefer a skirt and feminine top to jeans and t-shirts. You love details on clothing – pretty trims, sparkly jewellery and you wouldn't dream of dashing out in any old thing! Classic tailored style may be a little boring on you and you will want to create touches of interest without completely overdoing it to lose credibility.

Mostly 4's = Dramatic

Your interest is in strong bold lines and colours rather than anything too fussy, floral or feminine. You enjoy creating impact and will look good in the strongest colours from your palette, worn in contrast, to catch the eye. If you are more petite you might be better using eye catching accessories and a good haircut to make your statement.

Mostly 5's = Creative or Ethnic

An individual style that defies neat packaging! If you are someone who enjoys exploring vintage and second hand shops this could be you. To express your style appropriately you can be wild in your personal life and demonstrate the inner you in smaller details of your clothing- the asymmetric lines of a skirt or unusual jacket or

touch of something different in your accessories. You are likely to die in classic clothes unless you can give them an unusual twist.

Mostly 6's Eurochic. You've lived through a number of styles and as you've lived through various fashion phases you have now settled on a look that is chic and simple maybe stemming from being classic in the past but now you have a more relaxed contemporary feel to you or you may have been Dramatic and are now seeking something more comfortable and less high maintenance!

Your scores will indicate how strongly a style represents you as opposed to the other styles. You are highly likely to have a top style preference strongly tinged with a secondary one which affects how you dress for your style overall.
